

Terms of Use – V2.1

These Terms of Use, including as amended from time to time, set out the basis on which LoadTeam purchases computer power from Users. They apply to the relationship LoadTeam has with its Users and all contracts that LoadTeam may enter into from time to time with a User. They are negotiable and can be varied for each Contract provided the variation is recorded and agreed in writing between the parties. Consequently please read these Terms of Use carefully.

For the removal of doubt, Users are not employees of LoadTeam and these Terms of Use are not intended to constitute an employment agreement of any kind.

In consideration for LoadTeam providing the Users with the ability to provide Computation services, the User offers the Computation services to LoadTeam on a continuing basis as set out in these Terms of Use.

By ticking the “I agree to the Terms of Use” box when setting up and Account or offering to sell computing power to LoadTeam, you confirm that either:

- (a) you are a User intending to enter into a Contract with LoadTeam in a personal capacity, that you are over 18 years of age, and that you agree to comply with the Terms of Use; or
- (b) you are an employee, agent or subcontractor of a User who has been given the necessary authorisations by the User to see computing power, to agree to comply with the Terms of Use and to enter into a Contract with LoadTeam, in each case on behalf of the User.

If you are unable to provide one of the above confirmations, you must not tick the “I agree to the Terms of Use” box, or otherwise use or access the computing power services.

3. Computations and Engagement

3.1 The User by agreeing to these Terms of Use offers to sell computing power using the LoadTeam Software via the Platform. The allocation by LoadTeam of a Computation to the User will constitute LoadTeam's acceptance of the User's offer, and result in the formation of a separate Contract between LoadTeam and the User for the performance of such Computation by the User using the LoadTeam Software, that Contract being on the terms and conditions set out in these Terms of Use. For the avoidance of doubt, LoadTeam may, at its entire discretion, allocate one or more Computation units to the User, but provides no warranty or other assurance that the User will be allocated any minimum number of Computations and/or that the User will be treated on an equal basis compared to other users engaged by LoadTeam in connection with the allocation of Computations. The User agrees that by entering into these Terms of Use the User is making a continuing offer of the Computation services to LoadTeam on the basis that LoadTeam may accept that offer by allocating a Computation to the User as required by LoadTeam in the sole discretion of LoadTeam from time to time. Once the Computation Services have been provided pursuant to a Contract the Contract is at an end. Throughout a Contract the User's offer of the User's services continues.

3.2 Subject to clause 3.3, LoadTeam hereby grants to the User a non-exclusive licence to access and use the Platform for the purposes of downloading the LoadTeam Software, offering to perform Computations, submitting Computation Results and receiving Payments.

3.3 Except to the extent expressly permitted in these Terms of Use or as required by law on a non-excludable basis, the licence granted by LoadTeam to the User under clause 3.2 is subject to the following prohibitions:

- (a) the User must not access or use the Platform for any purpose other than those expressly permitted under clause 3.2;
- (b) the User must not sub-license its right to access and use the Platform; and

- (a) in any way that is unlawful, illegal, fraudulent or harmful; or
- (b) in connection with any unlawful, illegal, fraudulent or harmful purpose or activity.

LoadTeam maintains a record associated with a User's Account of amounts payable to a User for each Contract. Following verification of the Computation submitted by the User pursuant to a Contract and conditional on the User providing LoadTeam with a PayPal account, the User's Account will be credited with the Payment. LoadTeam makes payment to the User's PayPal account using the email address specified in the User's Account following which LoadTeam shall provide the User with a PayPal Transaction ID.

6.2 The credit balance on the User's Account does not earn interest and the Payment will only be paid across to the User once the amount credited to the User in the User's Account meets the criteria in clause 6.1. 6.4 Each Payment is inclusive of all sales and other taxes (including GST), duties, dues, expenses, costs and other charges, and the User acknowledges and agrees that it is not entitled to any additional payment or compensation in respect of a Computation, the submission of the Computation Results or any other activity. The User will provide LoadTeam with any information, documentation or other assistance that LoadTeam might require to avoid the need to make a deduction required by law.

6.5 The User agrees that if LoadTeam is required by operation of law to deduct any sums from a User's Account LoadTeam may make such a deduction and the Payment to the User will be less the sums deducted. However, in the absence of an obligation on LoadTeam by operation of law, the User is responsible for payment of all sales and other taxes (including GST), ACC levies, duties, dues, expenses, costs and other charges payable on sums paid by LoadTeam to the User.

6.6 The User agrees that the User is not an employee of LoadTeam and that LoadTeam is not required to provide the User with any of the statutory or any other entitlements associated with an employment relationship.
